Bringing the world of dance to your child's school

Each week we provide a positive and engaging dance class, so that children are able to experience the joys of dance, movement, and self expression with their friends.

We encourage children to use their imagination while learning ballet, tap, and Jazz-HiP HoP. We utilize dance terms, imagery and examples to engage children's minds and bodies.

Each week we break down skills and incorporate select skills into fun and memorable dance routines to perform for the family at the end of the semester and year end recital.

CURRICULUM OVERVIEW
